FOR IMMEDIATE RELEASE

January 14th, 2019

ANNOUNCING THE 7TH ANNUAL ARCHITIZER A+AWARDS

NEW YORK, NY - Architizer, the world's largest platform for architecture, announces the official opening of the 7th Annual Architizer A+Awards.

The Architizer A+Awards is the largest awards program in the world dedicated to honoring the year's best Architecture, Spaces, and Products. The A+Awards are judged by a jury academy featuring prestigious members of the architecture and design community, as well as luminaries from industries like art, technology, fashion, media, and real estate.

In collaboration with its official partners, **The Webby Awards**, **The Wall Street Journal**, and **Phaidon**, the 2018 A+Awards received over 400,000 public votes for 5,000 entries from over 100 countries.

"There's no greater honor for us than to receive this award from Architizer, the architecture community of the future." David Benjamin, The Living

Returning with an even bigger and more star-studded jury, including **David Rockwell** (Founder, The Rockwell Group), **Yves Behar** (Founder, Fuse Project), **Joe Gebbia** (Co-Founder, Airbnb), **Jeanne Gang** (Principal, Studio Gang), and **Bjarke Ingels** (Principal, BIG), entrants are judged in over 150 categories that represent diverse aspects of architectural and product design. The Awards are also judged by the public, with the aim to "break architecture out of the echo chamber" (Marc Kushner, Architizer Founder and CEO) and remind the world how architecture and product design impacts people's everyday lives.

New to this year's categories are awards that emphasize the crucial role of building-products in architectural design as well as those projects that address social and environmental issues. These include product categories for smart-building technology and acoustic solutions, as well as collaborative categories like Architecture +Climate Change and Architecture +For Good, which illustrate the dynamic relationship between design and social change. See the full list of [architecture](#) and [product](#) categories.

"Architecture is an urban detonator. When the public embraces it and make it theirs, you understand that your designs are meaningful, that they change the communities they inhabit."

- Michel Rojkind, Rojkind Arquitectos.

The 7th Annual A+Awards also see the return of [Architizer: The World's Best Architecture](#), an annual compendium of the world's best spaces, published by Phaidon. The book, which has featured winners like **Zaha Hadid Architects**, **Steven Holl**, **Thomas Heatherwick Studio**, and

Architizer A+ Awards

2018 National Design Award Winners **MASS Design Group**, is the year's definitive architectural guide. An affiliated publication, *Architizer: The World's Best Building-Products*, will debut in 2019 as the go-to product resource for architects worldwide.

ABOUT ARCHITIZER: Architizer's core mission is to empower architects. Through its inspiring content, building-product marketplace, awards program, and vast online reach, Architizer connects architects with the tools they need to build better buildings, better cities, and a better world.
